Summary

WHO I AM.

I'm Carmine Montalto. And I am honored to have this opportunity to present myself and my passion – three crafts, really:

Naming, Branding and Copywriting.

I love to write. I've been a copywriter for two decades, non-stop. I've created appealing call-to-action headlines for NYC subway campaigns. Named hundreds of beauty products. And written and honed brand concepts from their genesis to market launch. I've loved every single word of it. I've recently begun to take up screenwriting, something new and exciting for me!

I love brand voices. To me, the most successful brands – the true culture leaders – are those that speak clearly to their audiences, that captivate and convince; they're magnetic, yet surprisingly familiar. They're trusted and authentic. Like your most reliable friend.

Brands like that are pretty rare. Because a consistent, trusted brand voice takes ownership, commitment and longevity. Throughout my career, I have defined, evolved, and vocalized strong brand voices, including Kiehl's Since 1851 and the AIDS Rides. They are among my finest accomplishments.

WHAT I CAN DO FOR YOU.

If you're looking for an experienced, reliable and big-thinking copywriter, you've found one!

I specialize in product naming and packaging, brand naming and concept writing, advertising (headlines/taglines/body copy), brand voice, video scripting and voice over, and dynamic presentations.

I travel frequently – particularly to emerging markets in Asia and South America – to keep my perspective fresh, my talents honed, and my knowledge of beauty industry trends current.

I look forward to the opportunity to get to know you and move your brand forward. Please browse my website – and do not hesitate to contact me!

"I have had the opportunity to work with Carmine at Kiehl's and then as the CEO of a start-up beauty company called Living Proof. What's been great about that experience is that I've been able to see him contribute to our copy strategy in two distinctly different companies with distinctly different visions & brand attributes. A few things about Carmine that make him a great resource for any company. 1. He was able to strongly contribute to the copy strategy of my start-up company. He wasn't just a writer pushing out copy for collateral or a web site, he actually helped form our voice and how we talk to our customers. That's a very rare quality to find. 2. He's fast and delivers on-time, all the time. This has been true of both my work with him at Kiehl's and now at Living Proof. Again, rare to find in a creative resource. 3. His work is always well done and he is a good partner with "clients". He takes feedback really well, incorporates it and believes that revisions are important to making the final end product amazing. 4. He likes to contribute to ideas outside his area. So whether its new product development ideas, advertising campaigns or how to organize a company, Carmine has great ideas. All in all, I highly recommend Carmine for anyone looking for a fantastic creative resource in your organization."

"Carmine has an innate skill for coming in and quickly grasping a brand's essence. Working with him closely at Jurlique, I was always impressed by how he could distill brand identity better than people who had been there for years. His ability to refine complex messages into easily comprehensible marketing copy is simply superb. What's more, Carmine is an "intangibles" guy in that, as valuable as his talent as a wordsmith is to your brand, his value proposition is so much more than that. Carmine has a positive energy about him that can be – and is - infectious to your entire organization."

"Carmine is an incredibly talented copywriter; one of the the best I've worked with in the cosmetics industry. As a Product Developer, I had the pleasure of working closely with Carmine at Kiehl's on a multitude of cosmetic product concepts, packaging copy and product related communications. He never failed to impress me with his work and quick turnaround while working within tight deadlines and juggling an enormous workload. He most recently was hired as a Consultant for a brand I work on at the Estee Lauder companies. Carmine has the unique capability of being able to grasp a brands DNA as well as understand what a

Marketer is looking for from him. He also possesses the rare skill of creating a brand personality were non exists capturing the consumers attention and consistently delighting with his written word Simply said, Carmine "gets it" and delivers with incredible creative talent that is brand relevant and appropriate."

"I was blessed with the opportunity to work with Carmine on Living Proof. Never before have I seen such energy, excitement and positivity about writing. He is nothing short of a joy to be around and to work with. Carmine exercises the utmost professionalism when presented a task, and is driven to wordsmithing perfection. I encourage anyone to take Carmine for a test drive to see what he can do for your brand."

"The role of the "voice" of a brand cannot be understated. This most valuable asset to any company-- indeed the communication of its personality--is key to achieving the emotional connection that so many businesses seek with their customers (not to mention their employees). I have had the distinction of working directly with Carmine Montalto when he held this position at Kiehl's, which was during our most important developmental years--wherein we went from a company with one free-standing store, to the global reach and nearly 100 Kiehl's stores that we have today. Carmine completely embodied the role of "voice" of our company in every written missive he created, and by dint of the quality and passion of his work, he quickly became the author of virtually all of our communication, from our product labels to our in-store signage to our Web site. Carmine's creativity is uniquely impressive in that his work is not only extraordinarily quickly executed--and always with topnotch quality--but also consistently in the tone and manner that is uncannily representative of the company for which he is writing. I have witnessed this ability firsthand as Carmine has moved into consulting work during this past year, and I now continue to work with him in that capacity, as do other companies who have sought both his talented writing as well as his sage business and communication expertise. I give Carmine my highest recommendation as a Brand Voice Consultant and would be happy to be contacted directly to discuss my professional experiences with him in more detail, if desired."

— **Cammie Cannella**, was Carmine's client

"Carmine is truly one of the most talented people I have ever worked with. It is not only a pleasure to work with him but an inspiration as well. Now we work together on a freelance basis and Carmine is efficient and a true professional. I cannot recommend Carmine highly enough to any company that would be interested in working with this talented man. Sincerely, Charlotte Adjchavanich"

— **Charlotte Amouy Adjchavanich**, worked directly with Carmine at Kiehl's Since 1851

"Carmine has the innate ability to take information from wildly varying sources, distill its critical essence, and then convey a focused message in language both pointed and rich. The banter that comes with it along

the way is just an added bonus. Straightforward, reliable, intelligent, funny, interesting and interested -- I recommend him without exception."

— **Elizabeth Lamont**, worked directly with Carmine at Kiehl's Since 1851

"Carmine and I have had tremendous synergies working in the creative department as the company has expanded globally. He has been an indispensable asset to the brand, as the voice, Creative and Copy Director, and overseeing other copywriters in all facets of the business. Our job is quite dynamic, interfacing with Product Development, Marketing, Package Designers and Art Directors, PR, E-commerce, and the President in order to maintain a consistent voice throughout any of our communication, branding, and untraditional advertising. One of his greatest talents is being able to turn difficult concepts into simple communication in tandem with keeping the message fresh, quirky, and Kiehl's. I would recommend Carmine to any brand, agency, or emerging company seeking someone to find their true voice in the marketplace."

— **Steve Marchione**, worked directly with Carmine at Kiehl's Since 1851

"Carmine has been a pillar of Kiehl's since 1851 for six years and his contribution to this company has had a profound impact to the success of Kiehl's as a whole. He is highly talented in everything that relates to brand DNA and positioning, and is excellent at translating an original idea into a powerful, customer-appealing project. He is a beauty product junkie and passionate about his work. On a day-to-day basis, he is a great colleague to be around, friendly, entertaining and fun, while keeping the priorities and getting things done. It was a great privilege to work with Carmine over these years and I recommend him wholeheartedly."

— **Frederic Arbel**, worked with Carmine at Kiehl's Since 1851

"Over the past year I have worked with Carmine on a variety of initiatives for Kiehl's and Shu Uemura retail stores. He is a quick, clever, diligent and witty. He has an understanding of how to communicate without compromising the brand's message and is flexible to the evolving needs of the business and the variety of the communications. Carmine is perhaps the soul of Kiehl's; he is deeply committed to the values of the brand and is committed to his team and to building consensus on where to take the brand in the future. His vision of Kiehl's via the messaging in direct mail pieces, email campaigns, labels and signage is fresh and always entertaining. On a personal note, he has an amazing sense of humor and everyone is drawn to him. I hope to work with him on many future Kiehl's projects."

— **Daniela Rava**, worked with Carmine at Kiehl's Since 1851

His work helped set a lasting voice for national ad campaigns PTW launched year after year. Carmine also developed volumes of scripts, manuals, guidebooks, and even a quarterly magazine for participants. He was extremely instrumental in the success of the brands he shepherded.
